

MF Bar

PREVENTION. PROTECTION. PEACE OF MIND.

High Security Seal

ISO 17712 "H" Compliant
C-TPAT Compliant

Extra Strong, Container Barrier Seal

1. The MF Bar is a high security barrier seal to lock the container's central bars for any kind of containers. This is to stop tampering and to deter any illegal access into sealed containers and trucks.
2. Identical sequential numbers on the bar and bolt seal provide greater security as it prevent parts substitution or replacement.
3. Adjustable locking positions.
4. High Strength Steel locking bolt seal for added security.

Specifications

25 sets	560mm x 210mm x 190mm	16	0.02234			

High Security Barrier Seal For Containers

The MF Bar is made of high-strength steel construction. The actual locking mechanism - is embedded in the groove in the metal bush, making the seal stronger and more difficult to tamper.

Typical applications of the MF Bar seal include shipping and intermodal containers. The MF Bar is also widely used for ground transportation.

Be assured of better security with our innovative use of materials and industrial design.
