Where Security Meets Innovation

GritCargo is engineered in collaboration with Mega Fortris, a global leader in supply chain security. GritCargo is the end-to-end visibility platform for global logistics.

Empowering freight forwarders, exporters, and logistic providers to monitor, manage and move goods more efficiently and securely, we combine real-time data, smart sensors, and a powerful software platform to give you total visibility and control over your assets from dispatch to delivery.
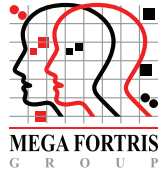

PREVENTION · PROTECTION · PEACE OF MIND

The GritCargo Ecosystem

The perfect blend of smart software and powerful hardware, delivering real-time insights, full control and peace of mind.

- 24/7 secure access to all trip records.
- Real-time updates of all trip metrics.
- Track every step of the journey.
- Smarter tracking to reduce risk and waste.
- Track every RTL unit from one hub.

- Customise parameters as needed.
- Alarms and email alerts based on preset parameters.
- Export trip data in CSV or PDF.
- Past data stored safely and easy to find.
- Customer support (GMT): Mon–Fri.

iMSense

iMSense real-time loggers report directly to the GritCargo dashboard. It provides real-time alerts, route history and data on cargo location and environment.

You set the parameters, and you get the alerts. No blind spots. No surprises. Just total control.

- GPS Positioning.
- Temperature & Humidity.
- Light Exposure.
- Shock Events.
- 2G/4G/5G Global Roaming Sims.
- Up to 120 Day Trip Length.
- 12-Month Shelf Life Before Activation.

iMSeal

Powered by GSM and Bluetooth technology, the iMSeal is a smart access solution that ensures only authorised individuals can unlock it either in proximity or remotely, provided it is within a designated safe location.

- Smart Real-Time Communication.
- Real-Time Tamper Alerts.
- Hi-Strength Cable, 1000kg Break Strength.
- Rechargeable Battery.
- IP 67 Rated.
- Patented Cradle Mounted Technology.
