

MEGA BRICK SEAL LOCKING PROCEDURE

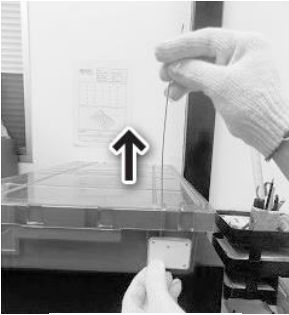

Diagram A

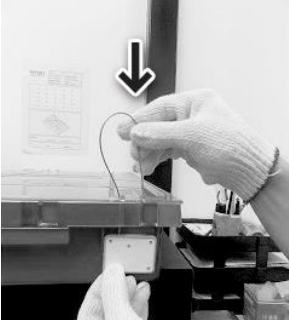

Diagram B

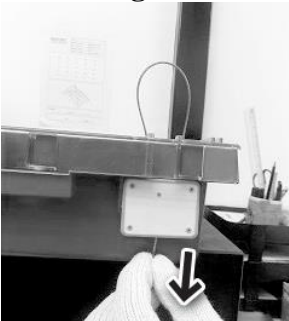

Diagram C

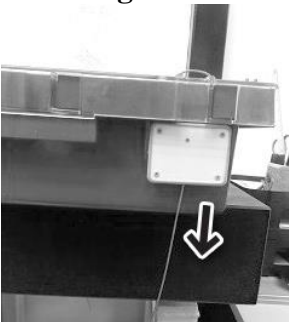

Diagram D

Diagram E

STEP 1

Hold the seal body with one hand and the wire with another. Position the end of the wire securely for insertion into the first Cash Box entry point. Once inserted, pull the wire through the small entry chamber to the maximum length per Diagram A.

STEP 2

Make a 'u' shape by inserting the end of the wire into the secondary entry point on top of the Cash Box. Pull the wire through as per Diagram B.

STEP 3

Then, insert the wire into the entry hole of the Mega Brick Seal. Pull the wire through until it has reached its maximum length as per Diagram C.

STEP 4

Once inserted, pull the wire through the small entry chamber to its maximum length as per Diagram D.

STEP 5

To remove an applied Mega Brick Seal, cut the wire with a thick wire cutter as per Diagram E.
