

# MT CHAMBER SEAL → LOCKING PROCEDURE

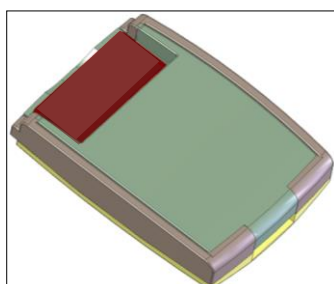

**Diagram A**

**Diagram B**

**Diagram C**

**Diagram D**

## **STEP 1**

Detach each seal from the mat of 5 by first bending it backwards at the joint followed by forward bending till it breaks, as shown in Diagram A

## **STEP 2**

Hold the seal using one hand with the locking facing sideways, as shown in Diagram B

## **STEP 3**

Insert the seal at the entry hole of the chamber, as shown in Diagram C.

## **STEP 4**

After inserting, push the seal till you hear a click to indicate that it has securely locked, as shown in Diagram D.
