Indicative Seal · Data Sheet

# LPG Tear Off

## Strong Indicative Gas Valve Seal

The Gasul LPG is a solid, user-friendly gas valve seal that protects against tampering with the gas cylinder and gas pilferage.

While being easy to apply by simply inserting the seal's tail through a designated hole next to the cap, the seal requires tools for removal, leaving clear tamper evidence.

The seal is designed with a staggered locking mechanism within the cover that secures the seal on a valve upon application.

### Features

- 1** The staggered locking mechanism provides secure locking even if sudden, assertive force is applied after sealing.
- 2** The efficient tear off feature is user-friendly and easy to handle, contributing to the seal's easy application and removal.
- 3** When the seal is tightened, the grip on the gas valve is secure with minimal loop.
- 4** Standard markings for the Gasul LPG include serial numbers, customer names and/or logos. The Gasul LPG seal is etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed or replaced. Full fitted gas cap to cover gas valves.
- 5** Finger grips at the end of the tail enable easy locking under any conditions.
- 6** Optional- **Biodegradable** additive can be added upon customers' requirement, securing strap gives the user a choice of strength to match different applications.

### Technical Specifications

#### PRODUCT - LPG TEAR OFF

Product	Material	Locking Length	Tensile Strength	Marking Area	Max Marking Digits
LPG TO	<b>Body:</b> PP	256 mm (10.08 in)	12-15 kg	<b>Flap :</b> ø20mm	<b>Serial no :</b> 6

#### PACKAGING

Quantity	Dimensions (mm)	Gross Weight kg	Volume m <sup>3</sup>	Standard Colours
