KEESEAL No Hole

Indicative Flat Stem Pull Tight Seal

Features

- 1 The KEESEAL no hole are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced without tamper evidence.
- 2 The metal Jaw lock encapsulated by a cap provides greater security and also pull strength despite the thin and flexible strap.
- 3 The embedded ruler or marking at the back of the seal provide better strapping grip on bags or other slippery materials with an accurate measurement.
- 4 Alternative- Eco-friendly security seal with added Biodegradable plastic additive. It enhances the ability of plastic to degrade by microorganisms in landfills, anaerobic digestion systems and aerobic facilities.
**without changing any technical properties of the seal.*
- 5 The KEESEAL comes with an additional marking (numbering) for locking seal length indication.
