

HIGH SECURITY SEAL FLEXIKLICK 2K (FLXK 2K)

Container Bolt Seal

Flexibility and security in a click.

Flexiklick 2K is uniquely designed with flexibility added into its strong locking mechanism. This feature prevents ricochet and comes with an anti-spinning feature. Flexiklick 2K is ISO 17712 and CTPAT compliant. The seal's flexibility complements its high security.

Applications:

- Containers
- Trucks
- Trailers
- Rail Cars

VIEW APPLICATION GIF

- 1 The Flexiklick 2K comes with an anti-spinning design that the locking mechanism allows only one-way entry and hinders friction from external force.
- 2 The extra long flexible steel wire cable pin allows easy application and is safer to cut and provides excellent protection against crude tools. The pin will bend upon impact.
- 3 The pin and bush are moulded in high-impact PP material to form into a durable pin and plastic barrel while withstanding extreme weather conditions of -20°C to 80°C. Pin and barrel are paired engraved for easier handling.
- 4 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the pin and barrel to prevent parts substitution or replacement.
- 5 Ribbed design on the plastic barrel prevents tampering on the identifier.
- 6 Additional wavy printing surface on pin gives clear evidence of tampering or removal of identifiers.
- 7 Biodegradable additives for plastic material are available.
- 8 The seal is designed, tested and certified ISO 17712:2013.
