HIGH SECURITY SEAL

FLEXI KLICK (FLXK)

Container Bolt Seal

Flexibility and security in a click.

Flexi Klick is uniquely designed with flexibility added into its strong locking mechanism. This feature prevents ricochet and comes with an anti-spinning feature. Flexi Klick is ISO 17712 and CTPAT compliant. The seal's flexibility complements its high security.
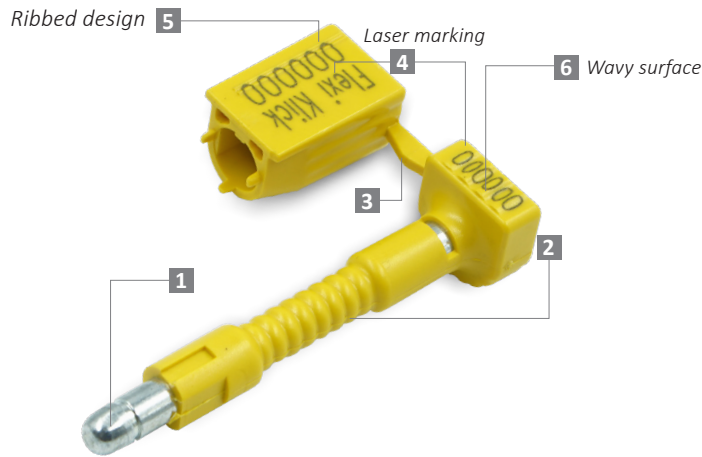

Applications:

● Containers   ● Trucks   ● Trailers   ● Rail Cars

BOLT SEAL

1 The Flexi Klick comes with an anti-spinning design that the locking mechanism allows only one-way entry and hinders friction from external force.

2 The extra long flexible steel wire cable pin allows easy application and is safer to cut and provides excellent protection against crude tools. The pin will bend upon impact.

3 The pin and bush are moulded in high-impact PP material to form into a durable pin and plastic barrel while withstanding extreme weather conditions of -20°C to 80°C. Pin and barrel are paired engraved for easier handling.

4 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the pin and barrel to prevent parts substitution or replacement.

5 Ribbed design on the plastic barrel prevents tampering on the identifier.

6 Additional wavy printing surface on pin gives clear evidence of tampering or removal of identifiers.

7 Biodegradable additives for plastic material are available.

8 The seal is designed, tested and certified ISO 17712:2013.
