GROUP

HIGH SECURITY SEAL
KLICKER (KLC)
Container Bolt Seal

Well-renowned piece for maximum security.

Klicker is the first container bolt seal in Mega Fortris, innovatively designed with an anti-spinning pin and barrel to prevent tampering. This seal complies to ISO 17712 and CTPAT, ensures highest possible security for high-value assets.
Applications:
● Containers   ● Trucks   ● Trailers   ● Rail Cars

BOLT SEAL

1 The Klicker comes with an anti-spinning design that the locking mechanism allows only one-way entry and hinders friction from external force.

2 Hardened steel pin and bush are moulded in high-impact PP material to form into a durable pin and plastic barrel while withstanding extreme weather conditions of -20°C to 80°C. Pin and barrel are paired engraved for easier handling.

3 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the pin and barrel to prevent parts substitution or replacement.

4 An optional transparent cover on the barrel further secures the identifier and provides high visibility.

5 Biodegradable additives for plastic material are available.

6 The seal is designed, tested and certified ISO 17712:2013.
